The higher price of gold and the Cuban question were entirely discarded as influences upon the mar-ct. The '62's closed 120½ bid, while the old '65's old at 118 and the new '65's, the '67's and the 85's at 115½. It will be remembered that an offer of To a few days since, was regarded as rather ex-agant and sanguine; but the course of the mar-since the bid was made has proved its sagacity. The was no report from London to-day, but the There was no report from London to-day, but the foreign houses were buying on orders for shipment received late the previous evening. feeling, although attention was more particularly directed to those which were least active in the very large advance yesterday. Indeed, the features of to settle at figures below the high quotations then attained. In the period of stringent money the para-dox of an ascending stock list was afforded, and the prophecy was made that consistency would be preved in a decline of stocks when money be easy. The market does not show signs of the reac-tion so predicted, but in these days of clique management the natural laws of finance are overridden or set aside. It may be that the spirited bidding up of prices really originates with the bidding up of prices really originates with the chiques, who are thus organizing an advantageous market to sell upon. In the railways, New York Central was strong, selling as high as 165%, and fluctuating between that figure and 164%. The prospective failure of the Broadway Railroad bill, with which the fate of the Central Scrip bill seems to be intertwined, does not weaken the stocks. Hudson River, while falling off a little from the prices of yesterday, seemed to be making way for Hariem, which sold up to 140. Reading, which kept company for the past month with Pacific Mail in the vicinity of 22, has taken a start to 24%, and Pacific Mail touched 94%. Chicago and Alton was very strong, evidencing the truth of the suspicion expressed some time ago that the recent "break" in it was to enable some friends of the directory to get possession of the stock. Wabash and the St. Pani stocks were buoyant and heavy. Fort Wayne was strong but steady in the vicinity of 182. Ohio and Mississippi was without feature. Michigan Southern and Lake Shore are nearly side by side in the race to par. The former, as the longer road, will be the gainer by the proposed consolidation with the latter, and is proportionately higher. It is also firm on account of an expected small dividend representing certain assets standing to the credit of the company. No new development has transpired concerning the Rock Island scrip dividend and the stock was "off" today. The Northwestern shares, which had been heavy and dull for several days and were weak at the clos last night under the influences of rumors that the June dividend would be "passed" and that the chief spirit of the road was very ill—one report announced his death—took a sharp upward turn to-day, the gentleman referred to making his appearance on the street in the enjoyment of his ordinary health and the officials denying that there was any foundation for the statement that there would be no June dividend. Of the miacellaneous list Mariposa preferred was noteworthy for an advance to 39% bid. The common certificates sold at 22%. 17he express stocks were without particular feature and meglected. Canton was active and quicksilver dull. Western Union Telegraph advanced about a half per cent upon the prices at the opening of business. TREASURY DEPARTMENT, April 14, 1869.

SIR—Your letter of the 13th instant, relative to the regulations for bonding railroads and other transportation companies, dated February 6, 1869, has been this day received. In view of your statements to the effect that an immediate enforcement of these regulations would cause a serious interruption to the business of your port, I have determined to postpone their enforcement until the 1st day of Jaly, 1889.

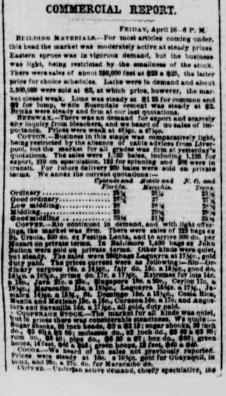

In the meantime it is expected that all transportation companies affected by these regulations will make prompt application to bond their respective routes, as those faiting to do so will be positively prohibited from transporting marchandise in bond after the expiration of the period named. Very respectfully,

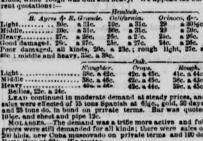

GEO. S. BOUTWELL, Secretary.

the Elevator Association continue in existence through the season or not, it is certain that the ruling price will not be more than one cent a bushel. Whether it will be less will depend on certain circumstances to be decided within a few days. The reduction is a fixed fact, and now that Buffalo has done her part it is time that the work began in Chicago and other Western cities. New York also must redeem her piedges. It is hardly to be expected that Buffalo will bear the entire brunt of battle against competing routes. It is, perhaps, to be regretted that the elevator men have taken such prompt action in the matter, as it will be seen by reference to the legislative proceedings of yesterday that there is a possibility of the State stepping in to take a share of the business. We fancy, however, that the Canal Board will have enough to do in properly regulating the toils to suit the new mood of commercial men without interfering with private business on the wharves of Buffalo.
